Letter of support

for Carman McKinney to the GLOBALG.A.P. Board of Directors

The International Hop Growers' Convention represents 17 hop producing countries along with 16 hop handler/processor companies. Sustainability and best practices for hop production and harvesting operations have gained attention from both the hop and brewing industries in recent years. Awareness of food safety practices that ensure high quality, safe ingredients have increased. The hop producing and brewing industries are working together to ensure common goals are achieved. Our industries are committed to enhancing positive impacts on the environment, our communities, and our employees.

We, the International Hop Growers' Convention, an international organization of hop growers and hop merchants registered in France - with its secretariat located in Slovenia support the nomination of Carman McKinney to the GLOBALG.A.P. Board of Directors.

With best regards

Prof. Dr. Martin Pavlovič
General Secretary
